

# NAOS, MIRAI & SIRIUS THE SERIES 8400

## Powerful

The suction power is so strong that a single pass is enough to clean most surfaces.

## Durable

Quality components and reliable design. Disan units are engineered to last for decades.

## Efficient

Up to 30% reduced energy consumption. Protect the environment and save money.

## Silent

With the main unit being far from the living space vacuuming is as quiet as a whisper.

## Practical

An integrated inlet and a wide range of brushes and accessories make cleaning a breeze.

## FilterGuard<sup>v7</sup>

**Innovative, best-in-class self-cleaning filter technology:** enjoy permanent airflow without ever having to unclog the cartridge filter by hand.

**Optimal Air Quality**  
No allergens

**Value Enhancement**  
Increase the property value

**Perfect for KlimaHaus Certifications**  
Tested for „KlimaHaus Nature Gebäude“

**Extreme Suction Power**  
Thorough and rapid cleaning

**Allrounder**  
Clean dust, dirt, water and ash

**Completely carefree**  
Maintenance cycle of over 10 years

CENTRAL VACUUM SYSTEMS

## YOUR HEALTHY LIVING SPACE.

Central Vacuum Systems for your Home

**CLEAN  
AIR.  
HEALTHY  
LIFE.**

## PLANNING YOUR NEW HOME?

For a clean and healthy indoor environment the vacuum cleaner is of paramount importance - but mobile units constantly blow particle-laden air back into the room, even when filtered. Instead, our central vacuum systems remove dust completely. As an integral part of the building they offer many more advantages that go beyond just vacuuming. Protect your health and your home with a Disan central vacuum.

*InTheWall*   
Retractable Hose System

## THE VACUUM CLEANER THAT STOWS ITSELF AWAY

The *InTheWall* retractable hose system by **DISAN** perfectly blends functionality and stylish design. Gone are the days when long hoses had to be carried around by hand. Instead, simply pull the hose out of the wall. And afterwards it disappears just as easily.

**Retractable hose:** lodged neatly inside the wall  
**Variable hose lengths:** 9, 12 oder 15 meters  
**Design:** four color options

## ACCESSORIES

With our accessories you can get the most out of your Disan central vacuum system. With the right brushes, nozzles, tubes, extensions, or with the smart robot that empties itself into the central system cleaning is truly a breeze.. Yet other items allow you to clean water or even glowing ash.
