### **Description:**

Inderst Srl - For decades, we have been competent partners for topics related to fruit and wine growing and machinery and equipment for fruit processing. We strive to offer our customers added value through commitment, professionalism, and passion. We are known for innovation, experience, and an excellent 360°-service. Every day, 40 employees strive to provide our customers with the best possible service. In the field of fruit and wine growing, we offer products for laying out plants, the protection of the plants against pests, and the harvesting of fruit and vegetables. The area of machinery and equipment for fruit processing includes high-quality complete solutions for the production of fruit juices, cider, jam, dried fruit, and vinegar. From planning to commissioning.
