### Settore e sottosettore

Manufacturing Sector, Production Of Goods

### Prodotti di esportazione

Turned parts

## Paesi di esportazione

Europe

Asia

### **Countries Europe:**

Bulgaria

Denmark

Germany

Austria

Poland

Sweden

Switzerland

Slovenia

Hungary

### **Countries Asia:**

China

India

Turkey

### **Description:**

Manometal stands for the highest precision, best quality and is constantly growing. Manometal produces turned parts with state-of-the-art automatic lathes, in large quantities, made of high-quality metals, for international industry: electrical industry, cooling and heating industry, pneumatics and hydraulics, control technology, plumbing, automotive industry and much more. The Manometal company was founded in 1980 with 7 employees in a rented premises in Neumarkt. In 1992 a new company building was moved into in Neumarkt and the workforce has grown to 47 people today. In order to meet the constantly growing demand for such precise turned parts, an expansion project has been tackled at Manometal since October 2022. The most modern, efficient and automatic sequences of production and assembly processes together with state-of-the-art storage and logistics systems require a lot of space and the necessary high challenges. Manometal is growing and therefore relies on its employees. "We want our staff to feel comfortable at work, that they enjoy their work. That is one of the top priorities of our business policy. That's why many of our employees have been with us for many years and that's what makes us successful," explains the management.
